Medscribe

Medscribe presents an innovative, AI-powered clinical documentation solution that is fast, safe, and affordable. Our software drastically cuts down the time clinicians spend on paperwork, acheiving an impressive 86% reduction in letter-writing time, with computation now optimised to less than 2 seconds per letter. By reducing administrative workloads, Medscribe empowers clinicians to refocus on providing quality patient care.
With regulatory compliance well underway, and trials planned for later this year, Medscribe will be ready for market entry in Q1 2025.

Problem

- The NHS is under growing pressure
  - Hospital bed occupancy at 94.5%
  - 6.75m on the waiting list
  - 2294 patients per GP
- 58% of GPs think this is unsafe
- Clinicians spend up to 50% of their time on paperwork
- How do we do more with less?

Solution

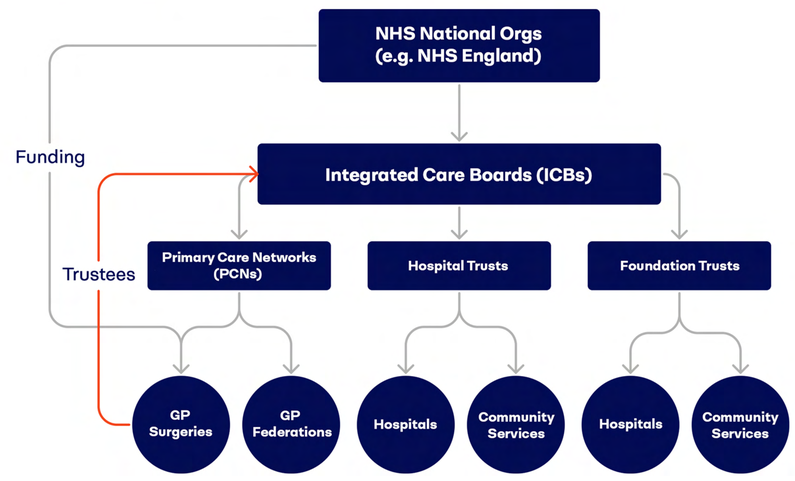
Medscribe equips doctors with a tool that creates safe, patient-friendly documentation, fast.

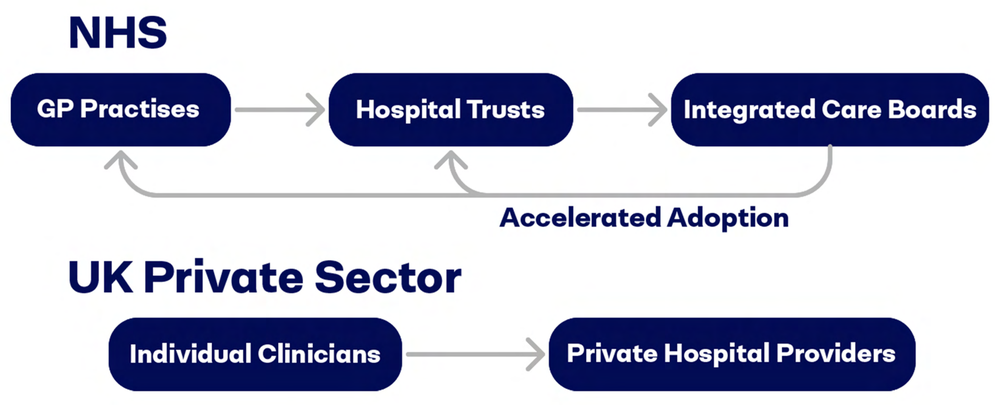
- Up to 86% faster than existing methods
- Simple, safe, affordable
- Privacy maintained

Market

- Medscribe is faster and cheaper
- Comprehensive solution, offering multiple documentation types
- Familiar input methods
- Intuitive interface

Sales





Intellectual Property

- Current protection through Copyright, Trademarks, and use of NDAs
- Potential AI patents in future
